Data sheet

FormVise 40 Mini

FormVise 40 Mini is a pin module for production. Placed in a machine vise or on a base plate, its pin field takes the shape of the workpiece and is locked with a single clamping screw. The module then works like a jaw that was machined for exactly this part.

Technical data

Description	**FormVise 40 Mini**
Order no.	**41.0386**
External dimensions W x L x H	**50 x 265 x 78 mm**
Pin field W x L	**22 x 25 (2x) mm**
Number of pins	**60 (2x)**
Pin diameter	**3 mm**
Pin stroke	**12 mm**
Weight	**3,2 kg**
Clamping element	**M6 hexagon socket (SW 4)**
Tightening torque, clamping screw	**12 Nm**
Clamping mechanism	**manual (clamping screw)**
Max. axial holding force	**1,8 kN**
Pneumatic connection	**M5**
Operating pressure	**6 bar, filtered compressed air**
Mounting position	**any**
CAD data	**STEP**

Issue date: 2024-06

(fictional company for assessment purposes)

Operating conditions

Ambient temperature	**+5 °C to +60 °C**
Coolant / liquids	**yes, resistant to water-based coolants and cutting oils**
Mounting position	**any**
Recommended max. workpiece weight	**2 kg**

Typical applications

- small precision parts
- medical and dental parts
- watch components

Maintenance

Blow out the pin field with compressed air after every shift.

Lubricate the pins with Alvery pin oil (49.9100) every 250 operating hours.

No wear-relevant parts apart from pins and clamping screw.

Spare parts

Article no.	Description
41.9006	Replacement pins Ø 6 mm, pack of 10
41.9010	Clamping screw M10, hardened

Included in the following sets

FormVise 40 Mini Base Kit Small (41.3859), FormVise 40 Mini Base Kit Large (41.3860)

Holding force depending on tightening torque

Tightening torque	Axial holding force
6 Nm	0,9 kN
9 Nm	1,35 kN
12 Nm	1,8 kN
