AutoForm

Pneumatic pin grippers for changing workpieces

Pin modules that adapt to any workpiece within seconds, actuated with compressed air. AutoForm modules hold, grip and fix different workpieces form-fit without changing the gripper.

Set-up for new part geometries is no longer necessary, and there is no need to store dedicated grippers. Even small batches and individual customer variants can be handled economically.

Three types: AutoForm 67 – AutoForm Mini – AutoForm Mini Duo.

AUTOFORM 67

THE STRONGEST AUTOFORM FOR GRIPPERS AND SUPPORTS

Form-fit gripping jaws for robot grippers and support systems. Pneumatically actuated with passive holding force retention and an extra-strong boost mode.

Integrable sensors allow monitoring and documentation during production.

AutoForm 67 Order no. 44.0672

External dimensions W x L x H (mm)	**52 x 115 x 140**
Clamping surface (mm)	**32 x 82**
Number of pins	**72**
Diameter of pins (mm)	**6**
Stroke (mm)	**22**
Max. holding force axial, passive	**1,1 kN**
Max. holding force axial, active	**4,2 kN**

Recommendations for applications:

- automated assembly processes
- robot handling
- supports in production lines
- workpiece weight up to max. 10 kg

AUTOFORM MINI

COMPACT GRIPPING FOR SMALL PARTS

Compact gripping jaws with 3 mm pins for small parts. Ideal for cobots and human-robot collaboration, because the pins adapt without high forces.

AutoForm Mini Order no. 44.0580

External dimensions W x L x H (mm)	**34 x 73 x 38**
Clamping surface (mm)	**22 x 25**
Number of pins	**60**
Diameter of pins (mm)	**3**
Stroke (mm)	**10**
Max. holding force axial, passive	**45 N**
Max. holding force axial, active	**95 N**

Recommendations for applications:

- robot handling in medical technology
- handling tasks with cobots (HRC)
- automated assembly of small parts
- workpiece weight up to max. 1 kg

AUTOFORM MINI DUO

TWO PIN FIELDS FOR LONGER SMALL PARTS

Two pin fields in one housing support longer small parts at two points. One modular kit instead of many dedicated supports.

AutoForm Mini Duo Order no. 44.1160

External dimensions W x L x H (mm)	**34 x 112 x 38**
Clamping surface (mm)	**2 x 22 x 25**
Number of pins	**120**
Diameter of pins (mm)	**3**
Stroke (mm)	**10**
Max. holding force axial, passive	**90 N**
Max. holding force axial, active	**190 N**

Recommendations for applications:

- double pin field area
- handling tasks with cobots (HRC)
- automated assembly of small parts
- workpiece weight up to max. 2 kg
