Data sheet

AutoForm 67

Revision 2026-09 – supersedes the data sheet of 15.11.2019. Changes: higher active holding force, lower air consumption, optional pin position sensor.

AutoForm 67 is a pin module for automation. The pin field adapts to the workpiece and is locked pneumatically, so one gripper or support can handle many workpiece variants without change-over.

Technical data

Description	**AutoForm 67**
Order no.	**44.0672**
External dimensions W x L x H	**52 x 115 x 140 mm**
Pin field W x L	**32 x 82 mm**
Number of pins	**72**
Pin diameter	**6 mm**
Pin stroke	**22 mm**
Weight	**3,2 kg**
Clamping mechanism	**pneumatic**
Air consumption	**16.500 mm³ / cycle**
Max. axial holding force, passive	**1,1 kN**
Max. axial holding force, active (6 bar)	**4,8 kN**
Sensor option	**Pin position sensor (IO-Link), option, article 44.0679**
Pneumatic connection	**M5 / QS-6**
Operating pressure	**6 bar, filtered compressed air**
Mounting position	**any**
CAD data	**STEP**

Issue date: 2026-09

Alvery Spanntechnik GmbH
Gewerbepark Nord 7

(fictional company for assessment purposes)

Operating conditions

Ambient temperature	**+5 °C to +50 °C**
Coolant / liquids	**splash water only (IP54)**
Mounting position	**any**
Recommended max. workpiece weight	**10 kg**

Typical applications

- robot grippers
- assembly lines
- support in production lines

Maintenance

Blow out the pin field with compressed air every 8 hours of operation.

Pneumatic actuators are lubricated for life. Pins: Alvery pin oil (49.9100) every 500 operating hours.

Rated for 2 million clamping cycles; replace the seal kit after 2 million cycles.

Spare parts

Article no.	Description
44.9067	Seal kit for pneumatic actuator
41.9006	Replacement pins Ø 6 mm, pack of 10

Included in the following sets

Available as a single module only.
